Space Coast of Florida

When others attempt, we accomplish!

- FAST turnaround
- Free Estimates
- NIST Traceable
- Repair and Calibration Services
- Large inventory of parts, no waiting
- Prices reduced up to 50% compared to Manufacturers

With the soaring costs of new Analyzers and the majority of companies Analyzers approaching or in the "end of life" status. Analyzer Repair Inc. saw the need to provide repair and calibration services for these specific test equipment.

ABOUT US

All of our technicians are Military PMEL graduates. After their tenure in the Armed Services, they spent time in Research & Development labs, Military PMEL labs, and Commercial Calibration labs.

Although we do repair and provide calibration services for new equipment, our goal is to provide another option for customers, to extend the life of their high performance analyzers.

LOCAL PICKUP

Located at Florida's Space Coast, we provide free pickup and delivery within a 20 mile radius.

WE BUY USED ANALYZERS

We will buy your surplus network and spectrum analyzers. Working or not!

SERVICES

Our repair facility specializes in the repair of out-of-support and end of life Network & Spectrum Analyzers and Signal Generators.

Our Engineering Group can provide the rebuild of obsolete RF microcircuits like RYTHM assemblies, YIG oscillators, microwave mixers, attenuators and more, thus reducing the price of the replacement part up to 50%.

All repairs include a 90 day warranty (parts and labor) on all work performed.

We work on ALL RF and Microwave Test Equipment. Just ask.

All calibrations are performed in compliance with applicable requirements and are traceable to the National Institute of Standards and Technology, (NIST)
